## ABOUT US

- KJES was established in the year 1992 with the aim to serve professional services in the field of piping, mechanical, civil, structural & electrical. Over the years we have completed numerous industrial projects.
- We are known for providing Plant designing, 3d modeling & drafting services and specialized in digitization and converting any type of Cad layout.

## OUR STAFF

- The success of the business is in its highly flexible workforce. A number of the staff has been employed with the company for many years. We support our local community by providing career opportunities for local people

## OUR VALUABLE CLIENTS

- KJES has a wide & diversified customer base, offering professional services to the large scale, medium scale & small scale industries. We have well established working relationship with many large organisations.
- KJES believe that our business will succeed when our client business succeed.
- We are driven to deliver tailor-made engineering designing & drafting services to meet our client's need.

## MISSION STATEMENT

- To provide innovative, responsive, trusted & safe design & detailed engineering services with the best quality and to effectively utilize resources to exceed client expectation through continuous improvement of our business with the help of a strong team of dedicated and experienced employees

## VISION STATEMENT

- To become one of the leading and most reliable engineering services company to address market needs with the path we follow in search of providing our clients with unmatched performance and the highest level of satisfaction in the industry and create a rewarding environment for our employees.

Your Future**

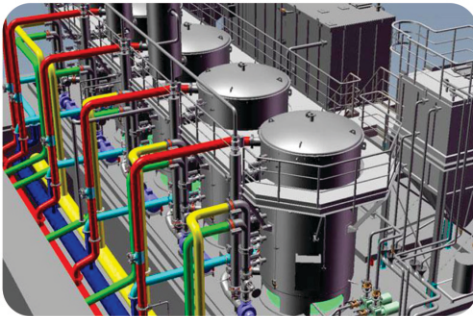

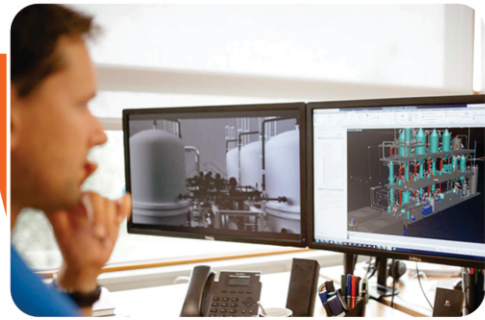

# What We Offer..

**K J ENGINEERING  
SERVICES**  
(Design & Detailed Engineering)

## • PLANT DESIGNING

• KJES is one of the emerging Plant Design & Engineering organizations. We offer multidisciplinary plant designing services including the way in which optimum piping routes are developed as per operational, maintenance, and safety point of view. Our Engineering capabilities cover both Greenfield and Brownfield projects. Our engineering team use high-tech engineering and project management tools to deliver complex Plant Engineering projects on time.

## • 3D MODELING & RENDERING

• KJES offers a wide range of precise 3d modelling & 3d rendering service to its clients from diverse industrial sectors and requirements. As you know 3d rendering service provides visualization analysis which helps in making your development process more efficient. 3d rendering transform the modelled object into an animated model.

• From 3d renderings to 3d animated Walkthroughs, KJES will bring your 2d & 3d drawing animations to life

## • DRAFTING SERVICE

• KJES provides drafting services which is necessary in industrial projects. Many companies/industries rely on accurate drawings to take their projects to successful completion.

• Drafting is an integral part of any construction project and it replaces manual drafting on paper and allows the engineers to prepare drawings on computers so that drafting Services have reduced the drafting efforts and increased the efficiency and quality considerably.

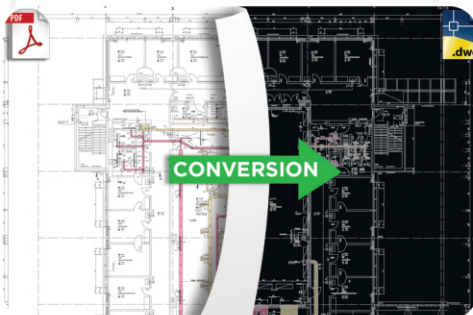

• We rapidly prepared drafting & detailing sheets to provide visual representation for dimensions & demarcations.

## • CAD CONVERSION AND DIGITIZATION SERVICE

• We are in the era of the 21st century where most of the companies are converting their drawings hard copy into soft copy. We at KJES provide accurate and perfect cad conversion and digitization services that makes the work convenient and also ensures to recover the data as and when required.

• Digitization means that technical drawings are much easier to transport, archive, modify and replicate. It also makes it easier to work remotely with talented drafting technicians from anywhere in the world, in real time.

KJES Provides another services for the purpose to meet clients need at the industrial level only.

•PRINTING •PLOTTING  
•SCANNING •XEROXING  
•FRAMING •LAMINATION
